Ivander Johana Pratama

AI Engineer and Software Engineer

Jakarta, Indonesia | ivanderjohanapratama@gmail.com | +62 821 7515 4739 | LinkedIn | GitHub | Portfolio

Information Systems graduate with a Data Science concentration and hands-on experience building AI-powered automation, enterprise applications, and full-stack systems. Experienced in action-capable AI agents, workflow orchestration, REST APIs, .NET/C# applications, Python/FastAPI backends, React/Next.js interfaces, and SQL-based systems. Works across the full development lifecycle—from business requirements and system-flow design to development, API integration, testing, troubleshooting, and deployment.

CORE STRENGTHS

AI & Automation Generative AI, LLM Integration, AI Agents, Agentic Workflows, Workflow Orchestration, RAG / Knowledge Retrieval, Prompt Engineering, NLP, Intent Detection, AI Automation, LangChain, Ollama, Gemini AI, Claude AI, Scikit-learn	**Backend & API** Python, FastAPI, Django REST Framework, C# / .NET, ASP.NET, REST API Design & Integration, Webhooks, JSON, Backend Services, Business Logic, Node.js Fundamentals, Java Fundamentals, PHP
Frontend React, Next.js, TypeScript, JavaScript, Vite, HTML, CSS, Tailwind CSS, Telerik Kendo UI, Bootstrap, Responsive UI	**Database & Data** PostgreSQL, MySQL, SQL, SQLAlchemy, Firebase, Database Design, Data Modeling, SQL Optimization, Pandas, NumPy, Data Processing & Validation
Integration & Automation Email Automation, Helpdesk / Ticket Automation, osTicket Integration, WhatsApp API / Gateway Integration, Multi-step AI Actions, System Integration, API Orchestration	**Cloud & Infrastructure** Docker, Docker Compose, Nginx, Git, CI/CD Concepts, Google Cloud Run, AWS Fundamentals, VPS Deployment, WebSocket, Ngrok
System Engineering Requirement Analysis, Business Process Analysis, System Design, SDLC, Agile / Scrum, ERD, UML, Sequence Diagram, API Documentation, Data Dictionary, Technical Documentation	**Testing & Troubleshooting** Functional Testing, Integration Testing, End-to-End Testing, UAT, API Testing, Debugging, Root Cause Analysis, Application Troubleshooting

PROFESSIONAL EXPERIENCE

Software Engineering Intern - PT Jababeka Tbk

Mar 2026 - Aug 2026 | Jakarta, Indonesia

Expanded from AI development into full-stack development and maintenance of JIFAS, Jababeka's enterprise finance ERP, delivering technical improvements across Finance and Accounting workflows.

- Developed and maintained JIFAS with ASP.NET/.NET C#, JavaScript, Telerik Kendo UI, and SQL; delivered features, bug fixes, UI improvements, and system validation.
- Improved Balance Sheet, Cash Flow, Bulk Posting, PUM Realization, Invoice, and Bank Transaction workflows by translating user issues and business requirements into technical solutions.
- Integrated the internal AI assistant into JIFAS so Finance and Accounting users could access system knowledge and operational support directly from the application.

Tools: ASP.NET / .NET C#, JavaScript, Telerik Kendo UI, SQL, JIFAS

AI Engineer Intern - PT Jababeka Tbk

Aug 2025 - Feb 2026 | Jakarta, Indonesia

Designed and developed an action-capable AI Agent embedded in JIFAS to connect company and system knowledge with real Finance and Accounting workflows.

- Built multi-step AI workflow orchestration for helpdesk ticket creation, email reading, email generation and sending, and combined actions from a single natural-language instruction.
- Developed the AI and backend integration with Python, FastAPI, LLM services, REST APIs, knowledge retrieval, and ticket and email integrations.
- Turned the chatbot from a question-and-answer interface into an internal workflow automation assistant for Finance and Accounting users.

Tools: Python, FastAPI, LLM Services, REST APIs, Knowledge Retrieval, Ticket Automation, Email Automation

SELECTED PROJECTS

Full-Stack Developer - VANGUARD - Fleet Control Tower

Jul 2026

A real-time Fleet Control Tower for dispatchers and supervisors spanning 14 operational modules and 13 report types.

- Centralized fleet monitoring, task management, geofencing, incident handling, trip history, evidence, and operational reporting.
- Implemented real-time vehicle tracking, route visualization, speeding, geofence, and GPS-delay alerts.

Tools: Next.js 14, TypeScript, FastAPI, REST APIs, SQLAlchemy, WebSocket, PostgreSQL / SQLite, Leaflet, Docker

AI Developer - WhatsApp-Based Issue Reporting & Analytics Dashboard

Dec 2025 - Jun 2026

AI-assisted WhatsApp issue reporting, structured ticket automation, and operational analytics integrated with TRAMOS.

- Replaced issue reporting through a single administrator with structured intake, troubleshooting, escalation, ticket creation, and operator notification.
- Implemented intent detection, issue classification, knowledge-base troubleshooting, and escalation.

Tools: Python, FastAPI, PostgreSQL, WhatsApp Gateway / Webhooks, AI / LLM Services, REST APIs, osTicket, Docker / VPS

Full-Stack Developer - AmanTeken - AI Legal Document Risk Analyzer

May 2026

AI-powered legal document analysis built as a full-stack, containerized multimodal application.

- Delivered an end-to-end legal document analysis application for #JuaraVibeCoding 2026.
- Built the frontend with React and Vite.

Tools: React, Vite, Django REST Framework, Python, Docker, Nginx, Google Cloud Run

Full-Stack Developer - Kalbe Engineering System Dashboard

Jun - Jul 2025

Interactive engineering dashboard for energy usage, work orders, equipment performance, MTTR, MTBF, and CAPA.

- Turned direct client requirements into a centralized monitoring experience for engineering operations.
- Built dashboard views for energy consumption, work orders, MTTR, MTBF, and CAPA.

Tools: Requirement Analysis, Interactive Dashboard, Energy Monitoring, Work Orders, MTTR / MTBF, CAPA

EDUCATION

Bachelor of Computer Science — Information Systems, Data Science concentration - President University

2023 - 2026 | GPA: 3.76 / 4.00

Information Systems program with a Data Science concentration. Jababeka Scholarship Awardee with 75% tuition coverage.

LEADERSHIP, ACHIEVEMENTS, AND CERTIFICATIONS

- Jababeka Scholarship Awardee — 75% tuition coverage at President University
- Secured 10+ corporate partners for President University Fashion Week
- President University Fashion Week (PUFW) — PIC Sponsorship
- Mr. & Ms. President University — PIC Sponsorship
- 3rd Place — SETSsail Biz Accel Exhibition 2024, Service Category
- Secured and coordinated 20+ sponsors for Mr. & Ms. President University
- Student Awarding Night (SAN) — PIC Sponsorship
- AIESEC ImpactED 1.0 — Volunteer

President Development Center: President English Short Course — Grade 81

AWS Training & Certifications: Amazon QuickSight: Getting Started, Fundamentals of Machine Learning and Artificial Intelligence, Introduction to Generative AI: Art of the Possible, Introduction to Machine Learning: Art of the Possible, An Executive's Guide to Generative AI Success, Fundamentals of Prompt Engineering with Claude, Building a Generative AI-Ready Organization, Designing Secure Retrieval Augmented Generation / RAG Applications with AWS, Developing Generative Artificial Intelligence Solutions, Generative AI for Executives, Optimizing Foundation Models, Planning a Generative AI Project

Additional AI & Data Training: Google Developer Groups — #JuaraVibeCoding, Vibe Coding Study Jam, Snowflake — AI & Data Platform Training / Discover AI, 7-Network Pte Ltd / JETData.AI — Future-Ready Industrial Parks: Mastering AI Trends & Agentic Workflows

Languages: Indonesian (Native), English (Professional)
